

ASTRONOMICAL TELESCOPES

114/900 EQ1 Reflector

SW1149EQ1

RRP
\$349.99

Perfect telescope for the beginning amateur astronomer. With maximum practical magnification of 224x, this telescope will reveal details in Saturn's rings, Jupiter's bands, the Martian polar ice caps, and the phases of Venus and the moon.

130/1000 EQ2 Reflector

SW1301EQ2

RRP
\$424.99

The portable size means that the Sky-Watcher 130/1000 EQ2 reflector telescope is easy to transport to your favourite viewing locations.

150/750 EQ3 Reflector

SW15075EQ3

RRP
\$1,199.99

With an aperture of 150mm, this telescope permits exploration of fine planetary details and amazing observations of the rings of Saturn, features on Mars, the tangled atmosphere of Jupiter and the phases of Venus.

STAR ADVENTURER MOUNTS

Star Adventurer GTI WIFI Mount

SWSTAR-GTI

BUILT-IN Wi-Fi
RRP
\$1,249.99

The Star Adventurer GTI can be set up in various configurations, perfect for your astrophotography needs. It is a high precision GOTO mount with a stable astrophotography bracket.

Star Adventurer MINI Pro Pack

SWSTAR-KIT-MINI

RRP
\$499.00

SAM (Star Adventurer Mini) is a high-precision, portable and stable tracking platform for sidereal, solar and lunar tracking with automatic DSLR shutter release control. It is small and light enough to easily fit into a camera bag or backpack, making it an ideal mount for the photographer on the move.

BUILT-IN Wi-Fi

Star Adventurer Pro 2i Pack

SWSTAR-PRO2i

Precise polar alignment for pinpoint stars astrophotography. The Star Adventurer Astro package is an ultra-portable equatorial mount kit ideal for small telescopes or for astrophotography with camera lenses up to 200-300mm in focal length. It fits on most astronomical, photo, or video tripods via its 1/4" and 3/8" adapter.

RRP
\$699.00

SYNSCAN APP

Control Your Sky-Watcher Mount Via WiFi. Many Sky-Watcher telescopes and mounts can be controlled via WiFi using either a built-in or optional WiFi Adapter. The WiFi module creates its own wireless network that connects to your phone, tablet or PC.

VIRTUOSO TABLETOP DOBSONIANS

The Virtuoso range from Sky-Watcher offers automatic telescopes ideal for beginners and those who want to get straight to observing. Aligning the Virtuoso mount takes mere minutes with the "Bright Object" alignment mode, and the computerised SynScan system is the ultimate upgrade that allows automatic pointing and tracking of more than 42,000 object in the sky!
